DETAILED ACTION

1. Applicants' Response to Office Action, received 25 November 2009, is acknowledged.

Claims 11, 14, 15, 18, 23 and 25 have been amended.

2. Claims 11-25 are pending and under consideration.

Oath/Declaration

3. The oath or declaration, received 11 June 2007, is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because: the second inventor's surname is incorrect. Applicants submitted the original Oath and Declaration with the second inventor's surname as "Tiwary". However, applicants' response to the Examiner's Inquiry in the last Office Action, mailed 27 August 2009, states that the correct name is "Tiwari".

Rejections/Objections Withdrawn

4. The objection to claim 11 is withdrawn in light of the claim amendment.

5. The objection to claim 15 is withdrawn in light of the claim amendment.

6. The objection to claim 18 is withdrawn in light of the claim amendment.

7. The objection to claim 23 is withdrawn in light of the claim amendment.

8. The objection to claim 25 is withdrawn in light of the claim amendment.

9. The rejection of claims 11-25 under 35, U.S.C. 112, second paragraph, as being indefinite for "an anti-mycobacterial glycolipid antibody from *Mycobacterium tuberculosis*", is withdrawn in light of the amendment of the claims.

10. The rejection of claim 14 under 35 U.S.C. 112, second paragraph, indefiniteness, is withdrawn in light of the amendment of the claim.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

11. Claims 11-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As newly amended, claim 11 is a kit for detecting pulmonary and extra pulmonary tuberculosis, comprising a test card coated with a hydrophobic material, mixing sticks, "a" glycolipid from a *M. tuberculosis* H₃₇RV antigen suspension intercalated or coupled with a liposome surface, a positive control comprising an antibody that binds to "a" glycolipid from *M. tuberculosis*, and a negative control comprising serum antibodies from a subject not previously exposed to *M. tuberculosis*.

It is unclear how the control listed as the positive control functions when the antibody binds to "a" glycolipid, and not "said" glycolipid intercalated or coupled with a liposome surface.

Claims 12 and 13 depend from claim 11, but do not clarify the issue.

12. Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim now depends from rejected claims.

Conclusion

13. Claims 11-14 are rejected. The Oath and Declaration is objected to.

Art Unit: 1645

14. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
